

The measurement done in Eilat area between 1957 – 1963 .
By Esbal and his friends.

They assuming that in other dry ground the condition is not much different.

The average ground temp at 8:00, 14:00, and 20:00 are:

Cut line – the temp at depth of 2 cm.

Line – the temp at depth of 20 cm.

Dot line – the temp at depth of 100 cm.
